Summary

Different honeycomb patter for the drawer

[Hobby & Makers](#) > [Organizers](#)

Tags: [organizer](#) [drawer](#) [gridfinity](#)

I loved the original model but i wanted to save some material especially where it is not needed like back/top/bottom/inside.

I saw different honeycomb solutions but no one was aesthetically to my taste, so I made different versione and selected the one I liked more but I post all because your preference may be different from mine.

All patterns are rotated to be printed without support.

Also removed the feet becouse i just needed 1 drawer and no stack, at least for now.
