First part of my skadis collection. Mainly mounts for printer tools. I will upload more over time.

Comment if you have optimization ideas or change requests.

The files for the kitchen roll holder are [here](#).

Most created by myself, but also some remixes. You will find more good mounts [here](#).

Update 14-03-22:

- skadis\_scale-tape-ikea
- skadis\_remote-holder
- various container sizes

Update 24-03-22

- skadis\_cutter
- skadis\_DrippyBucket [here](#)

Update 22-05-22

- added various hook sizes
- skadis\_geo-holder

Update 08-08-22

- Bosh mount
- witcher hook (only gcode)

Some people have some issues with some of the prints. Take the time to look in the comments and maybe scale the files in the slicer so they will safety fit for you.

I will upload reworked versions soon...
