Here is a case for the new threaded insert tools from CNC Kitchen designed for the TS100 soldering iron.

Print with no supports in as much detail as you like.

For assembly requires:

- 8x 4mm x 1.8mm magnets

TS100 threaded insert tips can be found here:

<https://cnckitchen.store/products/ts100-101-adapter-tips-set-m2-x-m3-m4-m5-m6-1-4-m8-100-lead-and-cadmium-free>

EDIT:

From the comments it seems there are different length TS100 adapters. I have created a second version for the adapters that are 105mm in length. If your adapter measures 103mm please use the original files.
