Summary

Want to have a ratchet handy in the 3D print drawer? This one is fine(tm), costs \$13, and here's an organizer for it.

[walmart](#)

I have just enough printers with just enough different nozzles, plus the occasional tool floating around the craft room, that having a ratchet on hand is a Good Idea. I grabbed [this 1/4 ratchet set](#) when I ventured into the sallow-lit hole that is my local Wal-Mart, and then of course proceeded to make a holder for the thing. I'm not sure I actually need SAE for this, but there wasn't a cheaper set that didn't have one, so, hey.

Metric: 4, 5, 6, 7, 8, 9, 10, 11

SAE: 5/32, 3/16, 7/32, 1/4, 9/32, 5/16, 11/32, 3/8

There are probably other quarter-inch drive ratchets that'll fit in here, but the Wal-Mart one was \$13, so in it goes.
