This is a 3M filter compatible mount I made by measuring the suction side of a 3M filter. It's probably not exactly correct, but it's close enough to work for me.

I used this as a component for my 3M filter to radial fan adapter: <https://www.printables.com/model/461068-adapter-plate-75x75x30mm-fugetek-radian-fan-to-3m->
