updated 20. 12. 2023 | published 20. 12. 2023

### Summary

Bracket to center the Filament run-out sensor so you can use 2 spool without changing sides.

Tags: [elegoo](#) [elegooneptune4](#) [elegooneptune4pro](#)

---

Bracket mounts underneath the spool holder .

Fits without modifications of wires etc.

You only need 2 longer allenhead bolts (M4x20).

To mount the Run-out Sensor to the bracket you just use the original allenhead bolt provided with the printer.

Probably fits also other Neptune models.
