### Summary

Icon set for labeling your Gridfinity bins!

I have been organizing all my hardware using GridFinity and wanted to label them. I couldn't find a good set of icons to include with my bins to categorize them that were simple enough to print from a low DPI label maker.

This will be an ever growing icon set as I continue to organize all my stuff into gridfinity. Please let me know if you need an icon that I haven't included yet and I can try to design one that fits the set.
