Summary

Great bin model from Pred, but without the magnet slots, plus extra room, saved time and filament. 3U & 6U models.

Updated 12-26-23 Fixed thin wall at bottom.

Great bin model, but didn't want/need the magnets. So you get the extra bit of room, and a saving of about 40% time and filament. No parametric, my newbness broke it.

This remix is based on

Gridfinity Bin with Printable Label by Pred (parametric)
