Summary

Remix of Onelostcause's original design, with some holes for holding extra blades

Hobby & Makers   >   Organizers

Tags: tool   holder   storage   cnc   mill   deburring   gridfinity   machineshop   deburr

Remix from Onelostcause, Original design here: https://www.printables.com/model/173082-gridfinity-deburring-tool-holder

I hacked up the original files provided by Onelostcause, if you too want to hack on them, you can find the Fusion files attached. There are some oddities in the files, but it's good enough to make some basic changes.

Printed on a Prusa mini in Polymaker PLA
