Summary

Remixed HEPA boxes for Bento Box v2

[3D Printers](#) > [Bambu Lab Parts & Upgrades](#)

Tags: [filter](#) [carbon](#) [hepa](#) [airfilter](#) [bento](#)

Modified the upper interface of HEPA to allow it to be freely placed above or below CARBON

Change C-Mag wall thickness;

Add Long Carbon and C-Mag;

Add Short Hepa;

This remix is based on

BentoBox v2.0 Carbon filter for Bambu Lab X1C, enclosed P1P & Voron Trident & others?
