Summary

A little more premium baseplate for your prime real estate.

[Hobby & Makers](#) > [Organizers](#)

Tags: [gridfinity](#)

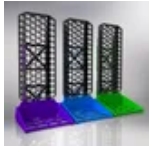

These [Superlight Baseplates](#), whilst printing fast and clean, lack weight and slide around easily outside of drawers such as on desks and shelves. I've taken the aesthetic of the base from the [Mini HSW x Gridfinity Organiser](#) and made these heavier baseplates for those special locations.

The optional TPE/TPU feet remove the scratchy plastic noise when moving the baseplates around and give them a premium feel. If you have some TPE or TPU laying around, definitely add them. If you don't have any, order yourself a sample roll (you don't need much) and add them later. I used eSun TPE as it has good friction and is softer than 95A TPU.

And there are a 14 different sizes!

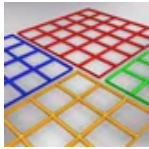

Check out [this collection](#) for my other Gridfinity models and check out [this collection](#) for my Honeycomb Storage Wall models.
